ABOUT ME

I am a Short-Form Video Editor focused on creating engaging content for social media platforms. With experience in video editing since 2020, I specialize in producing dynamic, attention-grabbing videos optimized for audience retention and engagement. In addition to video editing, I have a background in Frontend Development, which allows me to combine creativity and technical problem-solving across digital projects. Through my personal brand, I continue to develop my skills in both content creation and web development while staying up to date with industry trends.

WORK EXPERIENCE

Content Creator (Video + IA) | Software Factory AI

Apr.2026 - Present

- Comprehensive audiovisual content production for automotive vehicles, including photography, vertical video, and 360° video.
- Video editing and post-production using Generative AI tools, including visual enhancement, dynamic backgrounds, advanced effects, and AI-assisted voiceovers.
- Creation of social media-optimized content (Reels / TikTok), ensuring compatibility across Android and iOS devices through proper bitrate, resolution, and safe area management.
- Development of conversion-driven and sales-oriented content, focused on highlighting key product features and benefits.
- Documentation of workflows, including prompts, tools, and processes, to support auditing, consistency, and continuous improvement.
- Production of multiple content sets per week in fast-paced, high-demand environments.

Social Media Video Editor | Freelance

Nov.2025 - Present

- Creation of short-form vertical video content (Instagram Reels) for a variety of clients.
- Edited videos optimized for audience engagement and retention across social media platforms.
- Applied dynamic cuts, transitions, and rhythm-based editing to enhance viewer experience.
- Performed color correction and color grading to achieve a polished and professional look.
- Adapted content for Instagram Reels and TikTok, ensuring platform-specific optimization.
- Optimized vertical content to maximize viewer retention and watch time.
- Utilized dynamic transitions, motion graphics, and audiovisual synchronization to create engaging content.
- Focused editing on social media trends, pacing, and fast-consumption content formats.

Video editor - Youtube | Freelance

Apr.2020 - Jan. 2023

- Video editing for YouTube content in horizontal format, applying cuts, transitions, and audiovisual synchronization to maintain a dynamic and engaging visual flow.
- Performed color correction and basic color grading to enhance visual consistency and overall video quality.
- Managed and organized raw footage, assets, and project files to streamline the editing workflow and improve production efficiency.
